CLASS

TIME: 1977

SCENE: Willard State Hospital, Willard, New York

As we walk down the prophetic pathways of Willard, we see LANA LACKEY painting pictures of her patient friends. JANYCE FRITTS is coming in the paddy wagon after the collapse of her third marriage. JACQUE VREELAND is on her first crusade to convert Janyce to the Holy Order. JIM SMITH, the physical education instructor, is teaching RANDY WICKHAM the fundamentals of golf. LINDA CARROLL and LOIS PECK are desperately trying to create a becoming wig for STEPHANIE HAYES, who has recently gone bald. MARY EASTMAN'S mania for rings has finally put her in charge of the hospital boxing ring. Walking on, we see JOE STAWASZ, STEVE KAISER, and JOE BRODNICKI in the guard room. DEBBY HOPPY is outside leading a protest march against the inhuman treatment of the Polish. Suddenly a fire engine dashes down the street with none other than DOTTIE TRAPHAGEN as fire chief, and beside her is her dog, Moochie the Third. Prince JIM WYCKOFF of 136 is looking up into the sky (or as it seems to us); he appears to be saying, "Rapunzel, Rapunzel let down you hair", and Rapunzel, alias MARY LOU THOMAS, throws down her long braided locks. DAVE WOODINGTON, the Math teacher, is trying to teach LANCE LACKEY how to count. As we stroll further down the street, we see LINDA HOUSEKNECHT, RONA GOODMAN, and CHERIE JOHNSON busily working at their typewriters in front of the Hermitage. BETTY DIBBLE, who has become a barber, is giving JIM VANNOSTRAND a shave--his first in over a year. It looks like he needs a haircut, too. LINDA and SANDY CHILDS are still up to their twin tricks--now they're pulling them on the attendants! RUSS HAPSTAK has started a singing group, Russ and the Romantics, and is here entertaining many of his old school friends.

PROPHECY

Music instructor, SALLY FOXX, is trying to teach TICK STEUBER how to play the oriental washborad. There is quite a trick to that, you know. Our favorite Minister, FLOYD WESTERVELT, is preaching the fundamentals of football to BOB STEPHENS, fullback of the Willard Warriors. ART HOLMBERG and fellow inmate, JOHN HUFF, are out hacking up the greens at the new 18-hole golf course. However, they are only pretending to play golf--no one trusts them with clubs!!! TED SAUNDERS and KEN DEWITT, who are in the Security Ward, recently completed 1,227 games of tiddley-winks, each claiming 1,227 victories. ROSS BEDIENT is trying to teach JOE TRAPHAGEN how to play pool. However, the plumbing attendant, JACK TROUTMAN, demands that it come to a halt since six billiard balls were discovered to be the trouble with the logged toilets. Nice go, Joe!!!! Down at the Willard State Riding Stables, LAURA WAGNER and BRENDA SHAW are still trying to convince RICHARD MATTESON that it is safer to hold on to the reins rather than the horse's tail!!!! In the debate ward, LARRY VANVEEET and CHUCK HURD have been debating for months. It seems Larry cannot convince Chuck that Snoopy actually beat the Red Baron in a battle over Germany. RUTH AGUIRRE is begging Sharon Edwards to come in from the Willard Pumpkin Patch as the Great Pumpkin does not appear on Christmas Eve, just Halloween.

Departing from the friendly farm of foolish felicity, we wander back into the world of the sane, leaving this prophetic picture for you to peruse.

EXCHANGE STUDENT FROM ECUADOR

RUTH AGUIRRE POVEDA

My name is Ruth Aguirre Poveda from Guayaquil, Ecuador. My family consist of my father Angel Aguirre S. who works in the Bank of Guayaquil, my mother Belgica de Aguirre who works as a cashier in the Agua Potable Office, my sister Miryam is ten year old and a student at the German School in fifth grade, my brother Angel is nine years old and a student at the American School in third grade, and myself nineteen years old graduated as a secretary in the American School. We all live in a big house outside the city it is about twenty minutes from my house to the city.

I left my country August the 30th at 10:30 on Ecuadorian Airlines and arrived at Miami. At 12:25 I took United Airlines and after changed three times of airplanes I finally reached the Buffalo International Airport at 10:20 there I was met by Mr. and Mrs. Westervelt and a member of Fellowship, this was the first time that I have flown and I enjoyed it very much.

I was anxious to meet the rest of my family and to see my new home and school. I met many of the students and some of the town people, before the first day of school.

I found here that most of them to be very friendly and helpful. Many of the people were gracious and entertained me in their home which gave me more of the opportunity to meet and get to know the way of life in the United States of America.

During my stay with the Westervelts I found here like my own home, they were very nice and every time they tried to help me the best they could. I really enjoyed every minute that I spent with them, especially the holidays like Thanksgiving which we don't have in my country. I thought that was a very interesting day. I am very thankful to them and to all the things they did for me. I could never forget them and I am going to have in mind all my life all the beautiful days that I had there I was very lucky for having this people like my own family.

The first of January I moved to Fritts'. There I found a sister after having three brothers, this family was very nice and made me feel like their own daughter. I enjoyed very much all the time that I spent with them and I could never forget all the things that Janyce did the first day of school when I really needed a person like her to guide me every moment in school.

One of the most things that surprised me was the snow because was something I never have seen in my life before. All of these day I passed in The Village of Ovid, it was really hard to accustom myself to this kind of weather that we do not have, because we only have two kind of weather Summer and Winter, and all the time is hot.

Another difference that I found here was the school, first that our schools opens the 2nd of May and finish in January then, that every student have to carry with all the subjects, we don't have to change classes the teacher have because everybody in the class takes the same thing.

I really enjoyed the school days because the teachers were very nice with me and they all tried to help in the language and I learned very much English with their help.

I came to the United States mainly to learn English and take better knowledge about this beautiful language. I not only gained better understanding of the language, but learned more about the American people and the way they think, live, believe, and act. This is an experience that I shall never forget.

Thanks again!

Hasta pronto,
Ruth

EXCHANGE STUDENT TO COLOMBIA

JANYCE FRITTS

My trip to Bogota, Colombia provided many worthwhile experiences that I will never forget. I stayed the entire summer with Maria Cristina Ceron and her parents, sister and brother. Before I left I wondered if I would be very homesick being away from the U.S. so long, but my family was bound not to let me. They always had something for me to do and one week we flew to their farms.

My birthday was an exceptional day. I was awakened at midnight by a group of boys giving me a serenade, and in the morning my family marched in the room singing happy birthday in English and bringing me presents.

At the end of the summer I took a trip to an Island in the Caribbean with all the other Exchange students, and there we had a very easy life of sun and beach.

I think the best thing about the trip was the way the people treated me. My family, relatives, and friends there were always ready to help me and make me feel at home.

Besides learning Spanish, I benefited many ways during my trip that will be important to me in the future.

EXCHANGE STUDENT TO ARGENTINA

FLOYD WESTERVELT

In the summer of 1966 I was chosen by the International Fellowship to go to South America. I spent my summer in Mendoza, Argentina with the family of Sr. and Sra. Enrizue Ernesto Schmidt.

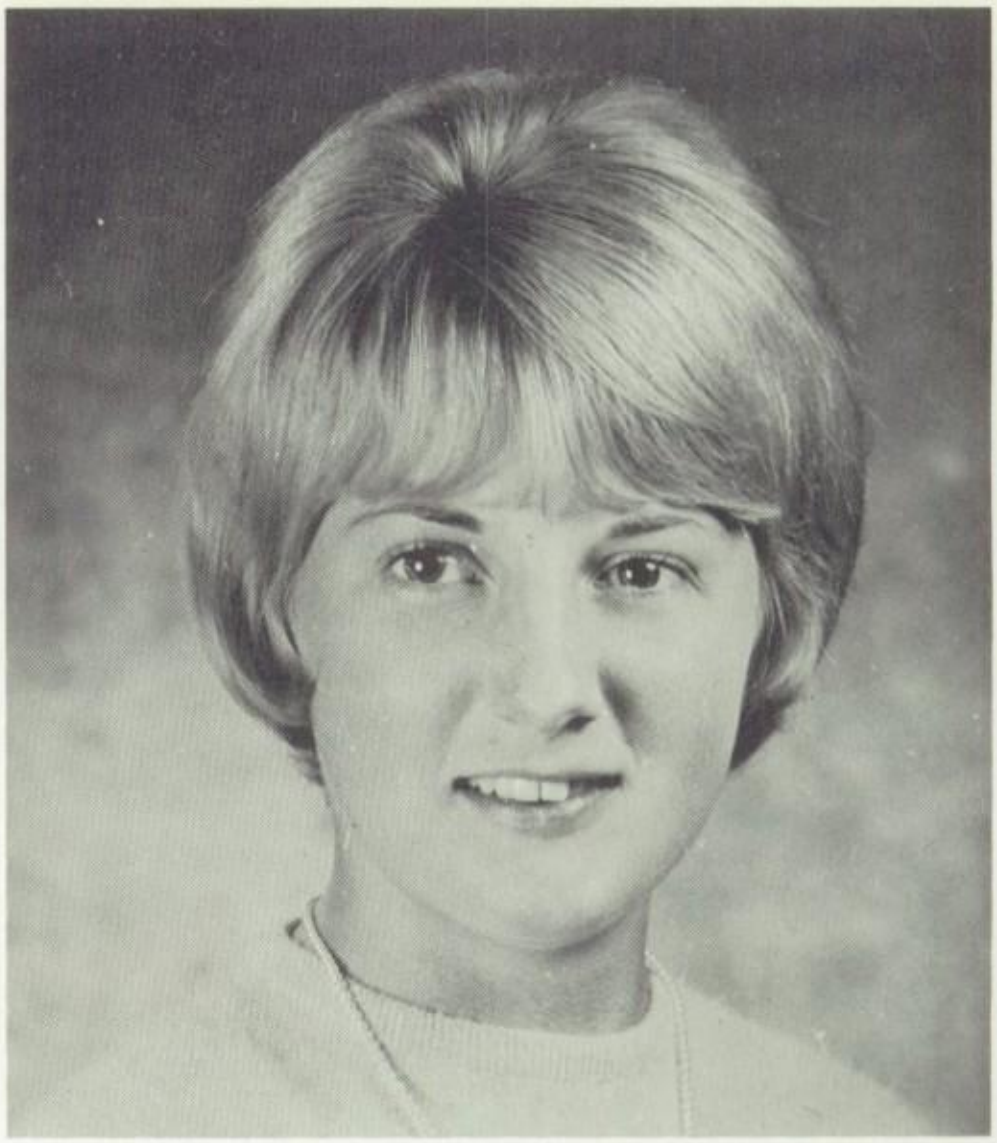
Mendoza is a city located on the western border of Argentina in the picturesque Andes Mountains. The city is about 150 miles from the capital city of Chile, Santiago.

Mendoza is the wine capital of Argentina, an expression well known there is -- "Todos los caminor conducen a la Capital del Vino". -- (All the roads led to the capital of the wine). Mendoza is not only known for its horticultural products; it is the second largest producer of petroleum in Argentina.

This is a city of great historical background, for here is the birthplace of the great liberator of South America, General San Martin. There are many monuments evoked to his memory, the greatest being located on the Cerre de la Sloria. This dramatic statue is made from San Martin's own melted cannons. To build and landscape its base, rock was brought from the mountains he crossed and soil from his great battlefields.

I thoroughly enjoyed my stay and want to express my gratitude to all of those who support the program. It is a great cultural exchange, which is necessary to help us understand other people.

1966 GIRLS' STATE



Mary Eastman

Being a citizen of Empire Girls' State, a grateful honor accepted by any Junior girl, can be an exciting and rewarding experience. In June of 1966, the American Legion Auxiliary provided me with the opportunity of attending the mythical 51st State held on the campus of the State University at Albany.

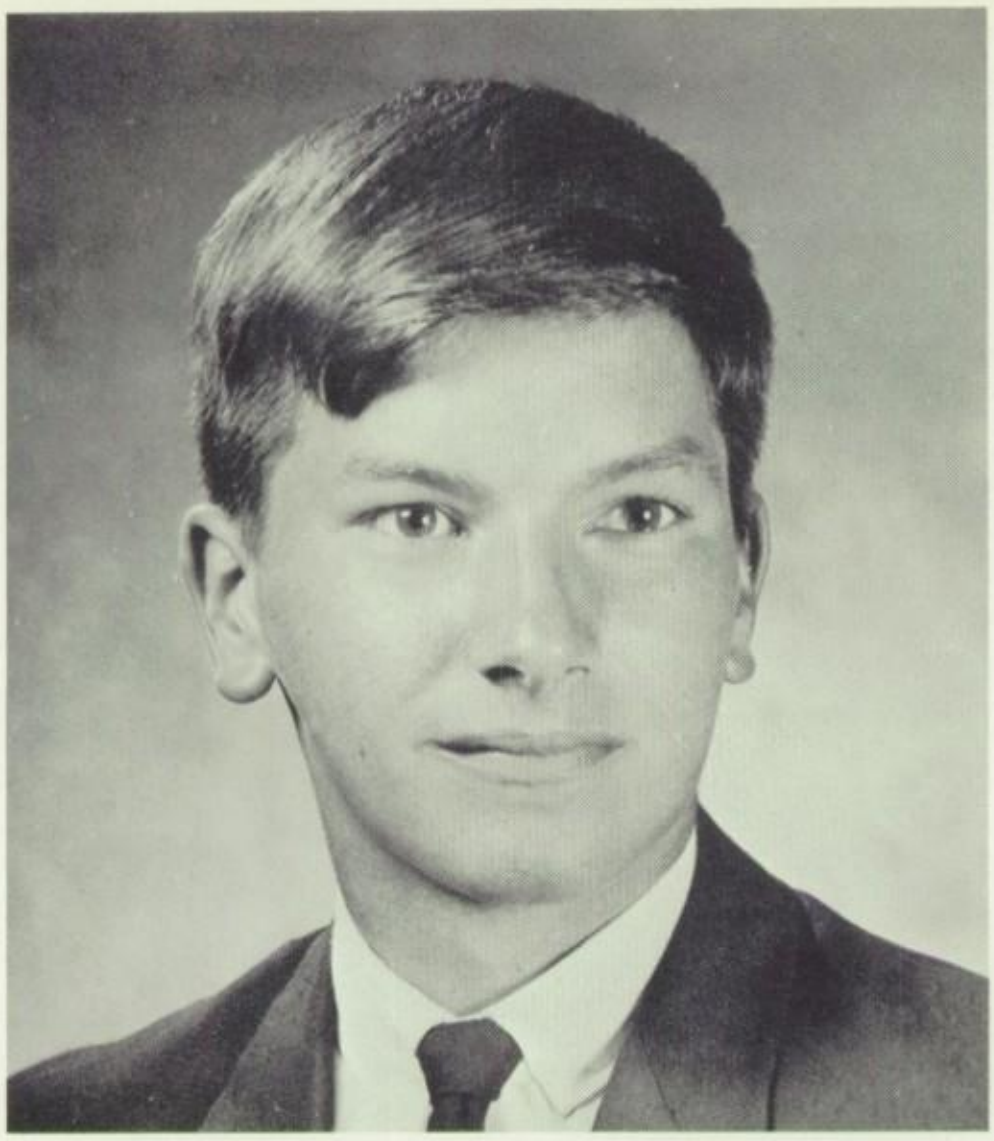
The founders of Girls' State are firmly convinced that there is a need to develop and encourage informed participation in government processes. They believe there should be instilled in youths the firm conviction that such participation is vital to maintain the ideals of democracy.

In the citizenship workshop, everyone received a course in practical civics taught through instructional sessions led by recognized authorities and holders of political offices, and through actual experience in campaigning, electioneering, public relations, and participation in political caucuses and conventions.

The purpose of Girls' State is to provide an "acute awareness of the privileges and responsibilities of citizenship, of the need to take an active part in government, of the importance of being fully informed on both local and national issues, and of faith in the future of our democratic form of government."

It was a thrilling experience, also, to be given the opportunity to join girls from all over New York State--to share their interests and philosophies.

I am proud that I was a citizen of Girls' State '66 and would sincerely like to thank all those who made my attendance possible.



Lawrence VanVleet

1966 BOYS' STATE

Boys' State--this year held at Morrisville, New York--was definitely a worthwhile experience. In addition to making many new friends, I returned home with a much-increased knowledge of our democratic government.

That is the basic idea of Boys' State, to demonstrate how our government functions. True, we learn (or rather, we're supposed to learn) this in our school courses, but there is a big difference between just learning and actually participating. And participation is the theme at Boys' State. Taking an active part in caucuses, in conventions, in campaigns, in elections, and in administration makes a citizen of Boys' State appreciate how the different levels of government all fit in and work with one another. And a Boys' Stater also comes to realize that most of what is called "dirty politics" is really just clever manipulation of parliamentary procedure and the use of mass psychology.

But Boys' State is not ALL government. No matter what offices a boy holds, he can still find the time to take part in any number of sports activities. (There are several tournaments going on all the time.)

All in all, Boys' State is a very enjoyable (There was only one big complaint--and that was one concerning the lack of girls.) and a very beneficial experience. It gives each person a chance to compare himself with others and to subsequently undergo self-improvement. And this personal improvement, coupled with new ideas and perspectives gained from Boys' State, helps in some way to improve the school and the community.

Thank you to all who made this opportunity available to me.
